September 1, 2011

Chief Executive Officer and Members DeKalb County Board of Commissioners DeKalb County, Georgia

The Comprehensive Annual Financial Report (CAFR) of DeKalb County, Georgia, (DeKalb or the County) for the fiscal year ended December 31, 2010 is submitted herewith. This report is prepared in accordance with the requirements of the Act providing uniform standards for audits of municipalities and counties within the State of Georgia, approved April 21, 1967 (Ga. Laws 1967, p. 883) as amended by an Act approved March 28, 1968 (Ga. Laws 1968, p. 464).

This report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with U.S. generally accepted accounting principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial statement is complete and reliable in all material respects.

The County's financial statements have been audited by KPMG LLP, licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended December 31, 2010, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the County's financial statements for the fiscal year ended December 31, 2010, are fairly presented in all material respects, in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls over compliance and compliance with certain provisions of laws, regulations, contracts and grant agreements, with special emphasis on the administration of federal awards. These reports are available in the County's separately issued Single Audit Report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

DeKalb County is an urban county providing a full range of services to 691,893 citizens. Included in these services are traditional county functions such as road maintenance and court-related activities, as well as a number of municipal services such as police, fire, solid waste collection and disposal, and water and sewer. There are ten incorporated municipalities within the County, including a portion of the City of Atlanta. The City of Dunwoody was created effective December 1, 2008. Those municipalities comprise approximately 18% of the total population of the County, and provide services to their citizens in varying degrees. Selected county demographic information is provided in the statistical section of this report.

A 1981 Act of the General Assembly of Georgia provides for distinct executive and legislative branches of County government. The executive branch is headed by the elected position of Chief Executive Officer (CEO). The legislative branch is made up of the Board of Commissioners, composed of seven members, which elects from its membership a Presiding Officer and Deputy Presiding Officer. The CEO has veto power, which may be overridden by a two-thirds majority vote of the Board of Commissioners. The Board of Commissioners has the power and authority to fix and establish, by appropriate resolution or ordinance (entered on its minutes), policies, rules and regulations governing all matters reserved to its jurisdiction. The CEO has exclusive power to supervise, direct and control the administration of the County government.

The financial statements, schedules, and statistical tables included in this report pertain to all functions and funds directly under the control of the DeKalb County CEO and Board of Commissioners. Also included are trust and agency funds administered and controlled by various elected or appointed officials, which are not reported upon by any other entity. The Board of Health and the Public Library are included as component units of the County. These component units are partially funded by the County, and derive significant funding from Federal and State grants and user fees. The Board of Health provides a broad range of physical health services, and the Public Library provides a wide range of information services. Both units ended the year in good financial positions.

Certain other entities are not included within the scope of this report. These exclusions consist of the DeKalb County Board of Education, the Fulton-DeKalb Hospital Authority, the Atlanta Regional Commission, the DeKalb Board of Family and Children Services, the DeKalb Community Service Board, the DeKalb Housing Authority and the Development Authority of DeKalb County. These entities are not considered component units and have not met the established criteria for inclusion in this report. However, any amounts appropriated for disbursement to these entities as well as any amounts

for which the County has contractual liability have been included in the County's financial statements. The Fulton-DeKalb Hospital Authority and the Atlanta Regional Commission are considered joint ventures and summary financial information is provided in the notes to the financial statements.

Annual budgets are adopted by the Board of Commissioners each year for the General, Special Revenue and Debt Service Funds. The level of control (the level at which expenditures may not exceed appropriations) for each annual budget is the department level within each fund. Revenue and appropriation adjustments may be made when the Board of Commissioners approves property tax millage rates. Supplemental allocations can also be made by the Board of Commissioners from the County's General Fund contingency account to fund unforeseen expenditures within the County's Governmental Funds' departments. Individual departments are charged with operating within the scope of their allocated budget and intra-departmental transfers must be submitted for approval by the Finance Department and/or the Chief Executive Officer.

Factors Affecting Financial Condition

Property tax income remained static reflecting a 4.4% decrease from 2009. At the end of 2010, the County's sales tax receipts increased by 3% compared to 2009. The number of new construction permits decreased by 34% with nearly \$754,000,000 in construction value on building permits issued. The County's annual unemployment rate of 10.2% for 2010 compared to 7.7% in 2009. In accordance with the Homestead Option Sales Tax, the County has granted a homestead exemption on operating levies of 56.6% in both 2010 and 2009. Revenue from business related fees and taxes (hotel/motel, alcoholic beverage, business licenses and building permits) declined by \$5,282,435 (17.0%) during 2010 compared to 2009.

DeKalb County is a mature County, which is mostly developed in many areas. The Atlanta metropolitan area, of which DeKalb is a part, serves as a center for banking, communications, transportation, accounting, insurance, and other services.

For 2010, there was a decrease in the major governmental, tax-supported budgets of 6.0%. The General Fund Balance at year-end was a deficit of (\$33,768,000), an increase in the deficit of \$9,351,000 from the previous year.

On December 1, 2008 the City of Dunwoody was created. The population of Dunwoody represents approximately 6.7 percent of the County, and the property tax digest in Dunwoody represents 11.9 percent of the County. Beginning in 2009, Dunwoody taxpayers did not pay for special district services such as Parks and Recreation, Police and Roads and Drainage. Intergovernmental agreements have been approved including one for Police services for a short term transition period. The County's revenue was impacted by the loss of business registration fees, excise taxes and fines in Dunwoody estimated to be \$18 million per year. The 2009 County Budget was adjusted accordingly.

Pursuant to State law, the County has received a Homeowners Tax Relief Grant each year based upon the number of homesteads. The County received the grant in 2009 for 2008, after which it may be granted only under favorable economic conditions. The County received \$16 million from this grant in 2008.

On March 18, 1997, the voters of the County approved a permanent one-percent Homestead Option Sales Tax (HOST), to be effective July 1, 1997. In 2010, 97.3% of this sales tax was used to reduce property taxes (in the form of a homestead exemption credit) collected for County operations (including General Government, Fire Protection, Hospital Services and Special District Services) from homestead properties. In 2010, \$2.4 million was dedicated to capital outlay (infrastructure) projects from HOST funds.

In response to the rising cost of personnel, the County offered an early retirement incentive program in April, 2010. As a result, 843 employees retired, the vast majority as of May 31, 2010, and the refilling of these vacated positions will be mainly in the areas of sworn public safety. The County will realize an annual reduction in salaries and benefits of approximately \$30 million in 2011. This reduced the 2010 and will reduce the 2011 budget requirements and allow for the adequate funding of pension obligations. The County's 2009 and 2010 budgets established unpaid days for employees for one day in 2009 and seven days in 2010 to reduce expenses.

Cash management policies and practices

The County maintains a pooled cash and investments account for most County funds through the State pool. The County seeks to obtain market rates of return on its investments, consistent with constraints imposed by its safety objectives, cash flow considerations, and Georgia state laws. Safety of principal is the foremost objective. Competitive bids are required on all County investments, that are not allocated to the State managed pool.

Risk Management and Employee Services

DeKalb County has a Risk Management and Employee Services Division within its Finance Department. The focus of this office is to minimize loss to the County through data analysis and loss prevention programs, and to administer the County's surety, liability, and employee group insurance programs including workers' compensation. The number of workers' compensation claims decreased from 859 in 2009 to 844 in 2010, and the lost work days per 1,000 employees remains below national levels.

Pension and other post employment benefits

The County sponsors a single-employer two-tiered defined benefit pension plan for all County employees. Each year, an independent actuary engaged by the Pension Board calculates the amount of the annual contribution that the County must make to the pension plan to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. As of April 1, 2010, the date of the last actuarial report, the County's pension plan had funded 68% of the actuarial accrued liability of the plan. Effective September 1, 2005, new employees are covered by pension benefits that have been scaled back. Contribution rates from the employer and employees have been increased since 2004 to maintain adequate funding levels.

The County currently offers to provide post employment health and life insurance benefits for all retirees. These benefits are financed on a pay-as-you-go basis. The County implemented GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* (OPEB) in fiscal year 2007. GASB Statement No. 45 establishes standards for the measurement, recognition and display of OPEB expense/expenditures and related liabilities (assets). GASB Statement No. 45 requires the financial reports of governments to provide a systematic, accrual-basis measurement of the annual OPEB cost. For 2010, the OPEB liability was increased by \$111,950,000 in the governmental funds, and \$37,909,000 in the business-type funds.

The County has determined the need for a prior period adjustment to restate beginning net assets for the government-wide statements and for certain enterprise and internal service funds. In 2007, the County adopted the provisions of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, which required the County to accrue these liabilities over a period of 30 years. As of December 31, 2009 and 2008, the County had not been accumulating the appropriate liability amount in its financial statements. See footnote #2 for additional disclosures.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to DeKalb County for its comprehensive annual financial report for the fiscal year ended December 31, 2009. This was the 35th consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The preparation of this report has been accomplished through the efficient and dedicated efforts of the entire staff of the Finance Department, particularly the Accounting Services Division, and through the cooperation of the various elected officials. I wish to express my sincere appreciation to everyone who contributed to the preparation of this report.

Respectfully submitted,

Joel Gottlieb

Director of Finance

Certificate of Achievement for Excellence in Financial Reporting

Presented to

DeKalb County Georgia

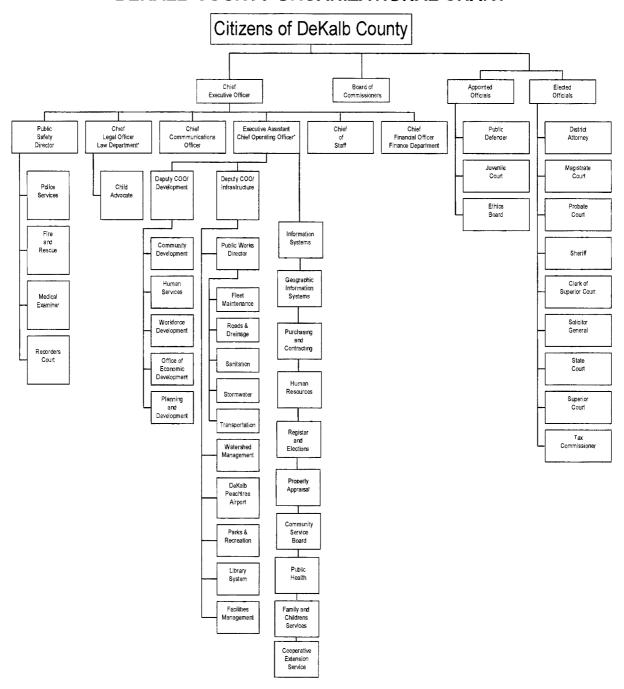

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
December 31, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT
MANAGEMENT'S DISCUSSION AND ANALYSIS
BASIC FINANCIAL STATEMENTS

KPMG LLP Suite 2000 303 Peachtree Street, N.E. Atlanta, GA 30308-3210

Independent Auditors' Report

Chief Executive Officer and Honorable Members of the Board of Commissioners DeKalb County, Georgia:

We have audited the accompanying financial statements of the governmental activities, the business type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of DeKalb County, Georgia (the County) as of and for the year ended December 31, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the DeKalb County Board of Health and the DeKalb County Public Library, which collectively represent all of the County's aggregate discretely presented component units. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the DeKalb County Board of Health and the DeKalb County Public Library is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respective financial position of the governmental activities, the business type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of DeKalb County, Georgia as of December 31.

2010, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund. Special Tax District – Designated Services Fund and the Special Tax District – Unincorporated Fund for the year then ended in conformity with U.S. generally accepted accounting principles.

As discussed in note 2 to the financial statements, net assets of the governmental activities, the business-type activities, watershed management fund, sanitation fund and the aggregate remaining fund information as of December 31, 2009 have been restated to correct a misstatement from the County's previously issued financial statements.

As described in note 17 to the accompanying financial statements, the County has certain risks associated with deficits in its general fund and certain major funds and aggregate remaining fund information at December 31, 2010.

In accordance with Government Auditing Standards, we have also issued our report dated September 1, 2011 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The management's discussion and analysis, the schedule of funding progress, and the schedule of employer contributions on pages F2 through F15, F57, and F58, respectively, are not a required part of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining statements and schedules and introductory and statistical sections listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

As management of DeKalb County (DeKalb or the County), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended December 31, 2010.

Financial Highlights

The assets of the County exceeded its liabilities at the close of the fiscal year by \$1,636,017,000 (net assets). There are negative unrestricted assets of (\$385,524,000) as all net assets are currently restricted to debt, capital assets and capital projects.

The County's total net assets decreased by \$84,974,000 during 2010. While the decline in revenue exceeded the decline in expenses, this was offset by a larger growth in capital assets. Governmental activities' net assets decreased by \$116,508,000. Business-type funds experienced a increase in net assets of \$31,534,000.

As of the close of the fiscal year, the County's governmental funds reported combined ending fund balances of \$142,093,000, a decrease of \$39,936,000 over the previous year. The decrease was due to revenue declines across the board and expenditures on capital projects. Fund balances in the General Fund and the combined Special Revenue Funds decreased while the combined Debt Service Funds experienced increases.

At the close of the fiscal year, unreserved fund balance for the General Fund was a negative (\$33,769,000).

The County acknowledges the urgency and criticality of reversing the trend of negative fund balances in certain funds, particularly the General Fund, and building back adequate reserves. The current General Fund deficit poses significant liquidity risk and potentially could increase the cost of any new bond issuances, and a reduction in services and service levels. The County currently limits its borrowings to fixed interest obligations for essential projects. In response, the County has implemented a number of major deficit reduction initiatives designed to reduce expenditures and increase revenues in 2011 and beyond.

In mid-2010, the County offered early retirement incentives to 1,200 eligible employees, resulting in 843 employees opting for early retirement and a reduction in annual salaries totaling more than \$30 million. In addition, the County's liability for unused vacation related to these employees was reduced and paid out by the Pension Fund. The Board of Commissioners eliminated all vacated positions, and authorized primarily the re-creation of certain critical public safety and business type activity positions. The County also implemented changes to the employee insurance programs to limit the growing cost of health insurance; this effort is on-going and is expected to continue to result in significant cost reductions. As a part of the 2010 budget, seven unpaid holidays were implemented, four of which were converted to furlough days. The County maintains absolute funds checking to mitigate the risk of unauthorized over-spending, and the CEO continues to direct activities under his office's control to eliminate unnecessary expenditures.

In mid-2010, the CEO and Board of Commissioners established a Revenue Enhancement Commission consisting of business representatives and community leaders. The Commission made its recommendations for new and enhanced revenues with potential increases in business registration fees, identifying under-reported property values, and other revenue streams. House Bill 1221, adopted by the General Assembly in 2010, amended the application of the Homestead Option Sates Tax to include food items effective January 1, 2011. This amendment will potentially increase revenues by more than \$10 million annually. Other adopted State legislation will increase fees charged by various courts starting in 2011. The County has devoted considerable attention to increasing revenues by the reduction of unpaid traffic fines, and implementing a paperless citation procedure and other court measures to streamline collections.

In the event that the deficit reduction initiatives described were to fall short of anticipated results, the County would evaluate other available options including additional tax levies.

The County's total debt relative to governmental activities decreased by \$24,459,000 during the fiscal year due to bond and capital lease retirement. In 2010, the County issued \$7,945,000 in new governmental revenue bonds for the acquisition, construction, renovation, and equipping of certain projects. The County also issued \$28,400,000 in new Water and Sewer revenue bonds for the acquiring, constructing, installing, and equipping certain additions, extensions, and improvements to the System. The County did not enter into any additional capital lease agreements.

The County has determined the need for a prior period adjustment to restate beginning net assets for the government-wide statements and for certain proprietary and internal service funds and fund balance of the other aggregate remaining fund information. In 2007, the County adopted the provisions of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pension*, which provisions required the County to accrue these liabilities over a period of 30 years. As of December 31, 2009 and 2008, the County had not been accumulating the appropriate liability amount in its financial statements. See footnote #2 for additional disclosures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future or prior fiscal periods.

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, public safety, civil and criminal court system, planning and development, public works, human and community development, parks and recreation, library, and health and welfare activities. The business-type activities of the County include watershed system, sanitation, DeKalb Peachtree Airport, and the stormwater utility program.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also a legally separate Board of Health and the Public Library Board for which the County is financially accountable. Financial information for these *component units* is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages F16-F17 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance (deficit) provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains forty-eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances (deficit) for the general fund, the special tax district designated services fund, the special tax district unincorporated fund, and the 2006 Transportation. Parks and Libraries Bond Fund, which are considered to be major funds. Data from the other forty-four funds are combined into a single aggregated presentation.

The basic governmental fund financial statements can be found on pages F18-F24 of this report.

Proprietary funds. The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its watershed system fund, sanitation fund, DeKalb Peachtree Airport fund, and stormwater utility fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its vehicle maintenance fund, vehicle replacement fund, and risk management fund. Because the risk management fund predominantly benefits governmental activities rather than business-type functions, it has been included within governmental activities in the governments. Because the vehicle maintenance fund and vehicle replacement fund predominantly benefit business-type functions rather than governmental, they have been included within business-type activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the watershed system fund and the sanitation fund. The DeKalb Peachtree Airport fund and stormwater utility fund are combined into a single aggregated presentation. Conversely, all three internal service funds are combined into a single aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages F25-F27 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on pages F28-F29 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages F32-F56 of this report.

Government-wide Financial Analysis

In the government-wide financial statements, all of the activities of the County, aside from its discretely presented component units, are considered either governmental or business-type activities. As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the County, government-wide assets exceeded liabilities by \$1,636,017,000 at the close of the fiscal year.

The basic financial statements include a reconciliation between the fiscal year 2010 governmental funds statement of revenues, expenditures, and changes in fund balances which reports a decrease of \$40 million in fund balances and the \$117 million decrease in net assets reported in the government-wide statement of activities, a difference of \$77 million.

Key elements of the reconciliation of these two statements are that the government-wide statement of activities report the issuance of debt as a liability, the purchases of capital assets as assets which are then charged to expense over their useful lives (depreciated) and changes in long-term liabilities as adjustments of expenses. Conversely, the governmental funds statements report the issuance of debt as an other financing source of funds, the repayment of debt as an expenditure, the purchase of capital assets as an expenditure and do not reflect changes in long-term liabilities.

The County's net assets reflect its investment in capital assets (e.g., land, buildings, infrastructure, equipment, etc.), less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net assets (6%) represent resources that are subject to external restrictions on how they may be used. The remaining negative balance of unrestricted net assets (\$386 million) results since all are restricted to capital or other legal restrictions. As background from 2009 to 2010, there was a decrease in the County's unrestricted net assets due to the County's implementation of GASB Statement No. 45 which required the accrual of liabilities associated with OPEB costs totaling \$149,859,000 in 2010 and \$138,028,000 in 2009. The County will reevaluate the impact of OPEB costs for fiscal year 2011.

At the end of the current fiscal year, the County is able to report positive balances in two categories of net assets, both for the government as a whole as well as for its separate governmental and business-type activities.

DeKalb County's Net Assets December 31, 2010 and 2009 (in thousands of dollars)

	Governmental Activities				Business-	type A	ctivities	Total			
	2010	200	9 (restated)		2010	2009 (restated)		2010		200	09 (restated)
Current and other assets Capital assets	\$ 289,540 1,328,301	\$	335,875 1,307,585	\$	238,962 1,410,656	\$	212,589 1,390,021	\$	528,502 2,738,957	\$	548,464 2,697,606
Total assets	\$ 1,617,841	\$	1,643,460	_\$	1,649,618	\$	1,602,610	\$	3,267,459	\$	3,246,070
Long-term liabilities (other than OPEB) OPEB long-term liabilities (2009 as restated) Other liabilities Total liabilities	\$ 443,691 349,427 132,976 926,094	\$	452,914 237,477 144,814 835,205	\$	579,513 111,472 14,363 705,348	\$	555,162 73,563 61,149 689,874	\$	1,023,204 460,899 147,339 1,631,442	\$	1,008,076 311,040 205,963 1,525,079
Net assets: Capital assets, net of related debt Restricted Unrestricted (2009 as restated) Total net assets	\$ 1,015,406 87,196 (410,855) 691,747	\$ 	996,928 40,306 (228,979) 808,255	\$	914,991 3,948 25,331 944,270	\$	906,295 68,357 (61,916) 912,736	\$	1,930,397 91,144 (385,524) 1,636,017	\$	1,903,223 108,663 (290,895) 1,720,991

In both the governmental and business-type activities, any increases or decreases in net assets relate to capital assets. The County continues to grow capital assets in the form of parks, libraries and transportation improvements funded by the 2006 General Obligation Bond issue. See more explanation of the capital asset activity in later sections of this analysis.

The accumulation of governmental net assets reported in the government-wide statements of net assets is a result of several factors. The following summarizes the main components of those governmental net assets:

Components of DeKalb County's Governmental Net Assets December 31, 2010 and 2009 (in thousands of dollars)

	Governme	ntal Activities
	2010	2009 (restated)
Net Assets Invested in Capital Assets,		
net of related debt	\$ 1,015,406	\$ 996,928
Net Assets restricted for:		
Debt service	13,096	6,756
Public safety	43,477	-
Capital projects	22,671	32,459
Other purposes	7,952	1,091
Total restricted net assets	87,196	40,306
Unrestricted Net Assets (Deficit)		
Unrestricted in governmental funds	(54,755)	(20,563)
Unrestricted in internal service funds	(731)	8,609
Unearned revenue accruals	4,774	37,525
Certain long-term obligations that do not require		
current funding:		
OPEB obligation (2009 as restated)	(349,427)	(237,477)
Pension asset	22,688	24,947
Compensated absences	(32,104)	(36,260)
Deferred debt issuance costs	_	(5,275)
Claims and judgments	(1,300)	(485)
Total unrestricted net assets (deficit)	(410,855)	(228,979)
Total Net Assets	\$ 691,747	\$ 808,255

In 2007 the County implemented GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions (OPEB). GASB Statement No. 45 establishes standards for the measurement, recognition and display of OPEB expense/expenditures and related liabilities and assets, note disclosures, and, if applicable, required supplementary information in the financial reports of state and local governmental employers. Prior to GASB Statement No. 45, most OPEB plans were reported on a pay-as-you-go basis and governments' financial statements did not report the financial effects of these postemployment benefits until paid.

GASB Statement No. 45 requires the financial reports of governments to provide a systematic, accrual-basis measurement of an annual OPEB cost. The following schedule displays the effect of GASB Statement No. 45 expenses as they appear in the Statement of Activities for the fiscal years 2010 and 2009.

Government-wide Expenses by Functions/Programs For the Years Ended December 31, 2010 and 2009 (in thousands of dollars)

Analysis of governmental activities

Net assets of the governmental activities of the County decreased by \$116,508,000 in 2010. Property taxes accounted for 44% of the governmental activities revenues, sales taxes accounted for 15%, and charges for services accounted for an additional 17%. In 2010, operating grant revenue increased 53% or \$13.9 million due primarily to an increase in revenue applied to Public Safety for homeland security and drug control related grants.

Charges for services and fines and forfeitures decreased in areas of Civil and Criminal Court System and Planning and Development. There was a \$5.7 million decrease in revenue from the Recorders Court as the court had to write off old account receivables. New development was down, reducing permit fees. The County collected \$1.6 million more in sales tax, a 1.9% increase. Property taxes declined by .4% as a result of lower assessments and significant volumes of foreclosure sales. Senate Bill #55 required consideration of foreclosure sales in setting assessments. House Bill #233 established a moratorium on reassessment increases for residential and commercial properties through 2011. Investment income increased nearly \$6.3 million during 2010. Overall, total governmental activities revenue decreased by \$15.8 million or 2.6%.

Public safety expenses accounted for 31% of governmental activities expenses during 2010 and were used for police, fire and rescue services. The civil and criminal court system accounted for an additional 25% of the total expenses during 2010 for governmental activities. General government expenses, which represented 17% of the total expenses for governmental activities, included the general administration of the County such as management of finances, information systems, human resources, and facilities management, as well as the executive and legislative functions of County government. Public works, which includes the management of roads and transportation networks of the County, accounted for 7% of the total expenses of the governmental activities during 2010.

Salaries and employee benefits, which comprised 66% of the total governmental expenses in the tax funds, increased 1% during 2010. In an effort to reduce the impact of the economic downturn on the tax funds and property taxes, the County eliminated annual pay merit increases and unfunded one holiday. The County also reduced positions in Parks and Recreation, Public Works, and Planning and Development.

The County continued these cost saving measures into 2010 by unfunding seven holidays for employees. The County also offered employees meeting certain criteria, an early retirement incentive program estimated to generate 750 retirements to which achieved 843 retirements. The program credited employees with 2 additional years of service and reimbursed the employee for 1.5 times the accrued unused annual leave, up to a maximum of 480 hours.

Analysis of business-type activities

Charges for services accounted for 99% of business-type activities revenues during 2010. Water expenses accounted for 28% of business-type activities expenses, sewer expenses accounted for 36%, sanitation services accounted for 29%, the stormwater utility program accounted for 5%, and the DeKalb Peachtree Airport accounted for 2% of expenses during 2010.

The Watershed System's metered sales increased by 16% in 2010 due to a phased in increase in rates and charges. Capital donations which comprise developer assessments, impact and tap fees, decreased 84% due to the continued downturn in residential and commercial development. In all, capital donations have declined \$759,000 or 51%.

The DeKalb County Board of Commissioners increased overall water and sewer rates effective 2008, to be phased in over the subsequent 3 years. For the average residential customer, the rate change reflects an overall increase of 16% effective January, 2008, 16% effective January, 2009, 16% effective October, 2009, and 16% effective 2011.

Total Watershed operating expenses decreased 8% and revenue including capital donations increased 11.4% from 2009 levels. The overall result was a \$36.6 million increase in net assets during 2010.

Sanitation revenues decreased \$1.6 million from 2009. Revenue in 2010 was lower due to a major write off of receivables deemed uncollectible. Sanitation held down costs by reducing new vehicle acquisition and a reduction in replacement of older vehicles. In sanitation, net assets decreased \$5.4 million during 2010.

Airport revenues increased by \$1.7 million from 2009, while rental fees remained steady. This contributed to a smaller increase in net assets of only \$2.6 million in 2010.

Stormwater utility revenue increased \$1.6 million during 2010 due to a continuing decline in grant revenues from other governments. The stormwater fee generated an additional \$6.4 million in 2010. These transactions contributed to a growth in net assets of \$6 million during 2010.

Net assets for the business-type activities increased by \$31.5 million from 2009, primarily due to an increase of revenue over expenses.

Analysis of the County's Funds.

Governmental Funds

As noted earlier, the focus of the County's governmental fund statements is to provide information on near-term inflows, outflows, and balances of resources available to spend. In its general and special revenue funds, the County reported combined ending fund balance of negative (\$28,131,000) a increase of \$8,659,000 from the prior year. Additionally, the governmental funds include the debt service and capital project funds with a total fund balance of \$170,224,000 which will be spent on outstanding debt and capital projects of the County. The 2006 Transportation, Parks and Libraries Bonds Fund represents 63% of this fund balance. In 2010 this Fund expended 22% of its prior year ending fund balance.

The General Fund is the chief operating fund of the County. The unreserved, undesignated fund balance of the general fund was negative (\$33,769,000) as of December 31, 2010.

The fund balance deficit in the General Fund as of December 31, 2010 increased by \$9,351,000 from the prior year. The fund balances deficits of the Special Tax District – Unincorporated Fund and the Special Tax District – Designated Services Fund at December 31, 2010 were also negative, (\$8,309,000) and (\$92,000), respectively. The increases in the deficits were attributable to expenditures exceeding revenues.

As a result, the County has taken significant steps to reduce the size of its workforce and therefore, lowering future operating expenditures by an annualized \$30 million discussed on page F2.

The reduction in fund balance of the 2006 Transportation, Parks, and Libraries Bond Fund during 2010, a decrease of \$23,381,000, was directly in proportion to the amount spent on capital projects for which the fund was established, less the interest earned on funds waiting to be spent. Significant progress was made on the construction of three new and five replacement libraries during 2010.

Proprietary Funds

Each of the proprietary funds has charges for its services as the major source of revenue within the fund with the expenses being predominately for salaries, employee benefits, and operating services and charges. Additionally, the Watershed System incurs significant expenses for interest on its long-term bonds and for depreciation of the capital assets of the system.

The County's proprietary funds report the activities of the watershed, sanitation, airport, and stormwater utility services within the County and report the same level of activity, with an overall increase in net assets of \$40,143,000 during 2010, as part of the business-type activities described earlier. A staged rate increase from 2008-2011 is intended to double revenues over that period. The increase is anticipated to facilitate an expanded capital improvement program geared primarily towards sewer treatment facility improvements. The Watershed System reports unrestricted net assets 30,215,000 as its net assets are all currently restricted to debt, capital assets, and capital projects.

The Sanitation Fund's net assets decreased by \$5,468,000 during 2010 as expenses exceeded revenues for the year.

The DeKalb Peachtree Airport had an increase in net assets totaling \$2,672,000 as a result of revenues exceeding expenditures. Rental income was steady and expenses experienced a small decrease.

The Stormwater Utility Fund's assets increased \$6,302,000 during 2010. Revenues exceeded expenses but were down from 2009 due to a reduction in grant funding from the Georgia Emergency Management Agency.

General Fund Budgetary Highlights

Overall, General Fund revenue decreased \$19,604,000 from 2009 levels. While sales tax overall declined, the portion deposited in the General Fund increased by \$1 million. County-wide sales taxes were down \$1.6 million or 2% attributable to the continuing economic recession. While property taxes overall decreased modestly by 0.4%, the portion deposited in the General Fund decreased \$8.2 million.

There were no significant changes between the original and final amended revenue budgets during 2010. All departments were directed to reduce expenditures to match the anticipated revenue shortfalls. Each department's budget was reduced accordingly. Elimination of merit increases, unfunding an employee holiday and a freeze on new hires helped reduce personal services and employee benefits costs by \$6 million in the General Fund.

Funds availability monitoring against the annual budget within the County's automated purchasing and financial management information system was established at the absolute level which is the department level within each fund, the legal level of budget control in the County. In order for a department to receive a purchase order for goods or services, the automated purchasing system would determine whether funds were currently available within the requesting department's budget. Additionally, potential savings from vacant position salaries were excluded from discretionary spending categories such as purchased or contracted services and supplies. This prevents departments from purchasing more goods or services with salary savings.

The Office of Information Systems incurred expenditures significantly less than budget due to a reduction of maintenance and repair services contracts. Purchases of new equipment were also delayed. The Police Department also reduced maintenance and repair services contracts and supplies, resulting in a significant budgetary savings. The non-departmental expenses differs significantly from the final budget each year due to an unexpended budgetary reserve.

Capital Assets

The County's investment in capital assets as of year-end amounts to \$2,738,957,000 (net of accumulated depreciation). The investment in capital assets includes land, land improvements, buildings, plants, infrastructure, vehicles and portable equipment, other equipment, leaseholds, and construction in progress. The County continued to purchase land in 2010 under the Greenspace Program and the 2006 General Obligation Bond program, adding \$1.5 million in land assets. Governmental infrastructure assets decreased by \$3.1 million relating to roads, sidewalks, and drainage improvements funded by the same general obligation bonds. Construction in progress related to governmental activities increased \$36 million during 2010.

The Watershed System placed into service a new 150 million gallon a day (MGD) water filtration treatment plant at a total construction cost of \$174 million. In 2009 construction was completed on the Chattahoochee River Raw Water Intake Pump Station. The additional raw water transmission lines linking Intake Pump Station to the new plant are under construction. Readers should refer to note 5 of the financial statements for more information on capital asset activity.

Capital asset balances at year-end are as follows:

Debt Administration

DeKalb County's financial condition is measured by the current ratings of its bonds as of December 31, 2010:

	Moody's Investors	Standard and
	Service	Poor's
General obligation		AAA
Refunded general obligation	Aa3	AAA
Water and sewerage system revenue	Aa1	AA+
Refunded water and sewerage system revenue	Aa3	AA+
Certificates of participation	Aa2	AA+

Subsequent to year end, Standard & Poor's downgraded and withdrew their ratings. Moody's Investors Service has placed the GL debt on Credit Watch Negative. The County continues to provide financial information to the rating agencies to restore the ratings.

On a budget basis, \$25,440,000 of general obligation bonds were retired during the year. The County's gross principal amount, less debt retirement funds available on general obligation debt at year-end was \$319,868,000. The constitutional debt limit for general obligation bonds is 10% of the assessed value of taxable property within the County. Based on current gross assessed property values of \$25.6 billion, the County's net outstanding general obligation debt represented only 1.3% of gross assessed property values.

Outstanding Debt December 31, 2010 and 2009 (in thousands of dollars)

	Governmer	tivities		Business-	type Ag	ctivities	Total				
	 2010		2009		2010	010 2009 2010		2010			2009

In terms of bonded debt per capita, the net direct general obligation debt outstanding at year-end decreased as a result of debt retirement to \$461.51 per capita, compared to \$472.43 in the previous year. Total direct and overlapping debt applicable to the County at December 31, 2010 was \$380,874,000, or \$550.48 per capita. This compares to \$566.63 at December 31, 2009. Details of direct and overlapping debt and legal debt margin are contained in the Statistical Section of this report.

Readers should refer to note 6 of the financial statements for more information on long-term debt activity.

Economic Factors and Next Year's Budgets and Rates

In accordance with the Homestead Option Sales Tax legislation, the County may allocate up to 20% of the previous year's receipts to capital outlay projects. In order to mitigate a potential tax burden, the 2010 Budget was adopted by the County providing for the use of only 2.7 percent, or \$2.4 million, for capital outlay projects. As a result, the Homestead Exemption Credit in 2010 remained at 56.6%.

Primarily due to historically low home mortgage interest rates, the number of homestead properties in the County has increased from 125,000 in 1999 to 149,607 in 2009, or an increase of 19.7%. Population has increased from 610,000 in 1999 to 731,200 in 2009. Foreclosures and other economic conditions have new caused the population to be reduced to 691,000 in 2010 according to the US Census.

The City of Dunwoody was created effective December 1, 2008. The population of Dunwoody represents approximately 6.7 percent of the County, and the property tax digest in Dunwoody represents 11.9 percent of the County. Starting in 2009, Dunwoody property taxpayers did not pay for special district services such as Parks & Recreation, Roads & Drainage and Police protection. Intergovernmental agreements have been approved, including the provision of Police services on a short term transition period. The County's revenues will also be impacted by the loss of business registration fees, excise fees and fines.

Pursuant to State law, the County had received a Homeowners Tax Relief Grant each year based upon the number of homestead properties multiplied by \$8,000 by the appropriate millage rates. The state withheld this grant in 2008 from all eligible governmental organizations. The County received the grant in 2009 for 2008, after which it may be granted only under favorable economic conditions. The County previously received approximately \$16.3 million per year, but does not anticipate receiving this grant in the next few years.

In 2010, a homestead freeze was extended by DeKalb voters pursuant to state law. The freeze exemption will be in effect through 2016, unless extended. This allows homestead values to be frozen during this period for current owners. The revenue lost as a result of this legislation is approximately \$4-5 million each year.

Requests for Information

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Office of the Finance Director, 1300 Commerce Drive, Decatur, Georgia 30030, 404-371-2741.

DeKalb County, Georgia

Reconciliation of Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances (Deficit) to the Statement of Activities For the Year Ended December 31, 2010

(in thousands of dollars)

(39,936)

The change in net assets reported for governmental activities in the Statement of Activities differs from net change in fund balance for total governmental funds because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is capitalized and reported as depreciation expense over their estimated useful lives. This is the amount by which capital outlays (\$54,863 net of \$563 that was not capitalized due to capitalization thresholds) and donated infrastructure assets (\$2,297) exceeded depreciation (\$35,881) in the current period.

20.716

Bond proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the Statement of Net Assets, however, issuing debt increases long-term liabilities and does not affect the Statement of Activities. Similarly, repayment of principal is an expenditure in the governmental funds, but reduces the related long-term liability in the Statement of Net Assets. This adjustment combines the net changes of the following:

Bond sales	\$ (7,945)
Repayments of bonds	\$ 29,665
Amortization of bond issuance expense	(145)
Amortization of premium on bond sales	1,007
Amortization of loss on bond refunding	 (363)

22.219

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is recognized under the modified accrual basis of accounting when it is due, rather than as it accrues. This adjustment combines the net changes of the following:

Net pension asset	\$ (2,259)	
Net other postemployment benefits (OPEB) obligations	(111,950)	
Claims and judgments	(815)	
Compensated absences	4,156	
Capital leases	2,739	
Accrued interest on bonds	276	(107,853)

Deferred revenue in governmental funds is susceptible to full accrual on the Statement of Activities.

(2,514)

An internal service fund is used by management to charge the costs of risk management to individual funds. The net revenue of the risk management fund is reported within governmental activities.

(9,140)

Change in net assets of governmental activities

\$ (116,508)

DEKALB COUNTY, GEORGIA

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010

1. Summary of Significant Accounting Policies

The financial statements have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental units. DeKalb County, Georgia's significant accounting policies are described below.

(A) The Financial Reporting Entity

DeKalb County, Georgia (the "County") was created by legislative act in 1822, and operates under an elected Chief Executive Officer and County Commission (seven members) form of government. As required by GAAP, the financial statements of the financial reporting entity include those of DeKalb County (the primary government) and its component units. Also, the fiduciary activities of the County's pension plan and various constitutional officers, judges, and other judicial officials are included in the fiduciary funds. These include the Tax Commissioner, Sheriff, Clerk of Superior Court, State Court, State Court Probation, Juvenile Court, Probate Court, and Magistrate Court.

The component units described below are included in the County's financial reporting entity because of the County's financial accountability for the entities and the significance of their operational and financial relationships with the County. In conformity with GAAP, the financial statements of the DeKalb County Board of Health and the DeKalb County Public Library Board have been included as discretely presented component units. The component units column in the financial statements includes the financial data for the County's two component units, as reflected in their most recent audited financial statements. These component units are reported in a column separate from the County's financial information to emphasize that they are legally separate from the County. The following discretely presented component units are incorporated into the County's financial report:

DeKalb County Board of Health (the "Board of Health") - The governing board of the Board of Health consists of seven members: the Chief Executive Officer of the County, the Superintendent of the DeKalb County Board of Education (both by virtue of their offices), three members appointed by the County Commission, and two members appointed by other jurisdictions. The County, by virtue of its appointments and the presence of the Chief Executive Officer on the governing board, controls a majority of the Board of Health's governing body positions. Although the County does not have the authority to approve or modify the Board of Health's operational and capital budgets, it does have the ability to control the amount of funding it provides to the Board of Health. Such funding is significant to the overall operations of the Board of Health.

DeKalb County Public Library Board (the "Public Library Board") - The governing board of the Public Library Board consists of twelve members: the Chief Executive Officer of the County, the Executive Assistant to the Chief Executive Officer (both by virtue of their offices), eight members appointed by the County Commission, and two members appointed by other jurisdictions. The County, by virtue of its appointments and the presence of the Chief Executive Officer and the Executive Assistant to the Chief Executive Officer on the governing board, controls a majority of Public Library Board governing body positions. Although the County does not have the authority to approve or modify the Public Library Board. Such funding is significant to the overall operations of the Public Library Board.

Both component units have June 30 fiscal year-ends. Complete financial statements of the individual component units can be obtained directly from their administrative offices. Addresses for these administrative offices are as follows:

DeKalb County Board of Health 445 Winn Way Richardson Health Center Decatur, GA 30030 DeKalb County Public Library Board 215 Sycamore Street Decatur, GA 30030

In 2003, the County established the DeKalb County Building Authority (the "Building Authority") which is governed by a board comprised solely of members appointed by the Chief Executive Officer of the County and the County's Board of Commissioners. The Public Safety and Judicial Facilities Authority was also created in 2003, established to construct and equip County court-related facilities. Although both are legally separate from the County's Board of Commissioners, these authorities are reported as if they were a part of the primary government,

blended component units, because their sole purpose is to finance and construct and equip County public buildings. The Building Authority's funds are included as non-major debt service and capital projects funds. The Public Safety and Judicial Facilities Authority's funds are included as non-major capital projects funds. No separate financial statements are available.

The County is also responsible for appointing the members of the DeKalb County Housing Authority. The County's accountability does not extend beyond making these appointments.

The Fulton-DeKalb Hospital Authority is considered a joint venture with Fulton County, Georgia. The Atlanta Regional Commission is considered a joint venture with other governments of metropolitan Atlanta.

(B) Basis of presentation

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) display information about the primary government and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Internal activities have been eliminated. These statements distinguish between the governmental and business-type activities of the County. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The Statement of Activities presents a comparison between direct expenses and program revenues for the various business-type activities of the County and for each function of the governmental activities. Direct expenses are those that are specifically associated with and clearly identifiable to a particular program or function. Administrative overhead charges are included in direct expenses for the business-type activities. Program revenues include 1) fees, fines, and charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The fund financial statements provide information about the County's funds. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and proprietary funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the fund's principal operations. The principal operating revenues of the County's proprietary funds are charges to customers for sales and services. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

Fiduciary funds are used to account for assets held by the County in a trustee capacity or as an agent for individuals, other governmental units, and/or other funds.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

The County reports the following major governmental funds:

The General Fund is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Special Tax District Designated Services Fund accounts for operations of the County's police, roads and drainage, and recreation departments. Financing is provided by a specific annual property tax levy and transfers from the special tax district unincorporated fund. Such property taxes are used only to provide police, roads and drainage, and recreation services for all residents of the County not provided with these services by other municipalities.

The Special Tax District Unincorporated Fund accounts for operations of various County activities which collect revenues that are restricted for use in the unincorporated areas of the County.

The 2006 Transportation, Parks, and Libraries Bonds Fund accounts for the proceeds from the 2006 general obligation bond issue and the related capital expenditures.

The County reports the following major proprietary funds:

The Watershed System Fund accounts for the provision of water and sewer services to the residents of the County. All activities necessary to provide such services are accounted for in this fund.

The Sanitation Fund accounts for the provision of sanitation services to residents of the County. All activities necessary to provide such services are accounted for in this fund.

The County reports the following fiduciary funds:

The General Employees' Pension Fund accounts for accumulated resources for pension benefit payments to qualified County employees and retirees.

The Agency Funds account for the assets held by the County in a trustee capacity as an agent for individuals, governmental units, and/or other funds.

The County reports the following other fund types:

Internal Service Funds account for vehicle maintenance, vehicle replacement, and risk management-related activities provided to other departments of the County on a cost reimbursement basis.

(C) Measurement Focus, Basis of Accounting

The government-wide, proprietary and fiduciary financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

All governmental and business-type activities of the County follow FASB Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements. The County has elected not to follow the option allowed under GASB Statement 20 and thus does not follow any FASB Statements issued after November 30, 1989.

(D) Budgetary Data

An operating budget is legally adopted each fiscal year for all governmental funds except capital projects funds. The level of control (the level at which expenditures may not legally exceed appropriations) for each legally adopted annual operating budget is the department level. Supplemental appropriations may be made annually at mid-year by the Board of Commissioners. Supplemental appropriations are also made out of the County's General Fund contingency account by the Board of Commissioners to fund unforeseen expenditures within the County's governmental funds at any time during the year. Presented final budgetary information reflects all supplemental appropriations as legally adopted by the Board of Commissioners. The Board of Commissioners must approve any department-level changes to a previously adopted budget. Management may amend the budget without seeking the approval of the Board at any level below the department level.

In accordance with Georgia law, the County has project length balanced budgets for all capital projects funds.

The annual budget cycle begins in August of the preceding year, when budget workbooks are distributed to each department. The County Code requires that the Chief Executive Officer of the County submit a proposed budget to the Board of Commissioners by December 15 or January 15 following an election year. The Chief Executive Officer and Board of Commissioners advertise and conduct public hearings on the proposed budget, in adherence to local ordinance and state law, and adopt a final budget prior to March 1.

The tax millage is set and tax bills are issued around July 1. A revised budget, based on fund balance carryovers and current revenue and expenditure trends, may be adopted prior to this date. Unencumbered appropriations lapse at year-end.

(E) Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the appropriation, is employed in the governmental funds.

(F) Property Taxes

Property tax billing and collection cycle dates are as follows; lien date - January 1 of each year; levy date - Fourth Tuesday in June; due dates - August 15 and November 15; and collection dates - anytime during the year.

(G) Cash, Cash Equivalents, and Investments

Cash management pools which are used essentially as demand deposit accounts and investments with maturities within 90 days of purchase are considered cash equivalents for puposes of the statement of cash flows. Investments are stated at fair value, based on quoted market prices. The Georgia Fund 1 investment pool (a local government investment pool) is not SEC registered, but is operated in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Therefore, fair value of the County's investment in the Georgia Fund 1 is based on the price of the County's share in the pool. The Georgia Office of Treasury and Fiscal Services is the agency with regulatory oversight for the Georgia Fund 1.

(H) Inventories and Prepaid Items

Inventories are determined by actual physical count and are stated at cost (using average cost flow assumptions) for the governmental activities and at the lower of average cost or market for the business-type activities. Inventories are recorded as expenditures when consumed rather than when purchased. Certain payments to suppliers reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

(I) Restricted Assets

Proceeds from the sale of watershed revenue bonds plus interest earned on the investment of these funds are restricted to the construction of new capital facilities and other improvements to the water and sewerage system. All monies in excess of those required to maintain the working capital of the water and sewerage system's operations are transferred to a separate account and restricted to the construction of new capital facilities and other expenditures as allowed by the water and sewerage system's bond resolutions. Sinking fund monies are restricted to the payment of bond principal and interest requirements as they become due, as well as the maintenance of required reserves. Liabilities payable from these restricted assets are reported separately to indicate that the source of payment is the restricted assets.

The government-wide statement of net assets reports \$91,144,000 of restricted net assets, of which is restricted by enabling legislation.

(J) Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of donation. General infrastructure assets consist of the road network assets that were acquired or that received substantial improvements subsequent to January 1, 1980 and are reported at estimated historical cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' useful lives are not capitalized. The County capitalized \$4,608,783 of interest incurred in business-type activities for the year. Capital assets are depreciated using the straight-line method over the following estimated useful lives and with the following capitalization thresholds:

	Esimaled	
	Useful Lives	Capitalization
Asset Class	(in years)	Threshold
Buildings	20-50	\$ 40,000 - 100,000
Land improvements	15-50	30,000 - 100,000
Infrastructure	10-50	20,000 - 100,000
Vehicles	1-10	All Capitalized
Equipment	5	5,000

Catinagtad

(K) Claims, Judgments, and Compensated Absences

Liabilities for claims and judgments against the County, including estimated liabilities for claims incurred but not reported at year-end, have been accrued. Liabilities for compensated absences have been accrued in the government-wide and proprietary fund financial statements and are all considered long-term obligations of the County. A liability for these amounts is reported in the governmental funds if they have matured and are expected to be paid with expendable available resources.

Employees earn annual leave at the rate of 15 days per year for the first 5 years of employment up to a maximum of 30 days per year after 25 years of employment. There is no requirement that annual leave be taken, but the maximum permissible accumulation at year-end is 60 days. Any accumulation of annual leave greater than 60 days is converted to sick leave at year-end. At termination, employees are paid for any accumulated annual leave up to the 60 day maximum. Employees earn sick leave at the rate of 13 days per year with no limitations. At termination, accumulated sick leave is converted to annual leave at the rate of 15 days to 1 day and is subject to the 60-day limitation. A liability for these amounts is reported in governmental funds only if they have matured as a result of employee resignations and retirements.

(L) Landfill Closure and Postclosure Care Costs

State and federal laws and regulations require the County to place a final cover on its Seminole Road landfill when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and postclosure care costs as an operating expense during each period based on landfill capacity used as of each financial reporting date. The \$25,637,000 reported as landfill closure and postclosure cost liability at year-end represents the cumulative amount reported to date based on the use of 52.3% of the estimated capacity of the landfill, net of related expenditures to date of \$4,766,000. The County will recognize the remaining estimated cost of closure and postclosure care of \$24,128,000 as the remaining estimated capacity is filled. These amounts are based on the estimated cost to perform all closure and postclosure in 2010. Actual cost may be higher due to inflation, changes in technology, or changes in regulations. Closure and postclosure care financial assurance requirements will be met by adjusting the sanitation rate structures in the enterprise fund as required. The County expects to close the current landfill cell in the year 2011, but has previously acquired enough additional land to meet landfill needs through 2019.

(M) Management Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenditures / expenses during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include: useful lives of capital assets, allowances, pension obligations, legal liabilities, and landfill closure and postclosure cost estimates.

2. Restatement

The County is required to accrue liabilities associated with its other postemployment benefits (OPEB) obligation under GASB Statement No. 45, Accounting and Financial Reporting for Postemployment Benefits Other Than Pension. During 2010, the County determined that its OPEB liability was understated due the County recording the current yeare OPEB expense and reversing the prior year liability amount. The County restated its net assets as of December 31, 2009 to correctly reflect the OPEB obligation.

The County's December 31, 2009 net assets have been restated for the following funds (in thousand of dollars):

	Gov	vernmental	Busi	iness - Type							
	F	Activities	-	Activities							
	Gov	vernmental	E	Business	V	atershed	S	anitation	Airport	Ма	intenance
Net Assets at December 31, 2009, as previously reported	\$	939,986	\$	954,017	\$	685,738	\$	102,598	\$ 71,263	\$	(5,677)
OPEB liability accrual error		(131,731)		(41,281)		(20,969)		(11,436)	(969)		(7,907)
Net Assets at December 31, 2009, as restated	\$	808,255	\$	912,736	\$	664,769	\$	91,162	\$ 70,294	\$	(13,584)

As a result of the correction, certain footnotes have also been restated.

3. Joint Ventures

DeKalb County is party to a contract with Fulton County, Georgia and the Fulton-DeKalb Hospital Authority (the "Hospital Authority") for the operation of Grady Memorial Hospital (the "Hospital"). The Hospital provides health services to indigent citizens of both counties. Three members of the Hospital Authority's Board of Trustees are appointed by the DeKalb County Board of Commissioners with another seven members appointed by the Fulton County Board of Commissioners. The entire operations of the Hospital Authority are disclosed as a component unit in the Fulton County, Georgia Comprehensive Annual Financial Report. DeKalb County has a financial interest in the Hospital Authority because operating deficits of the Hospital, up to an annually predetermined amount relating to indigent care, must be funded by Fulton County or DeKalb County under the terms of the contract. The funding formula is based on the ratio of patient levels between the two counties. For the year 2010, DeKalb County funded \$14,389,595 of the Hospital's operating deficit. DeKalb County has limited control over the operating budget of the Hospital, but must approve any debt issuance of the Hospital Authority. The Hospital Authority's debt is secured by a pledge of the operating revenues of the Hospital.

Payments to the Hospital Authority are made from the County's other governmental funds. For the year 2010, DeKalb County paid an additional \$7,704,741 towards the Hospital Authority's debt service. Separate financial statements of the Hospital Authority may be obtained from: Fulton-DeKalb Hospital Authority; 80 Butler St. SE; Atlanta, Georgia 30314.

Condensed financial information for the Hospital Authority as of and for the year ended December 31, 2009 (December 31, 2010 amounts are unavailable) is as follows (in thousands of dollars):

Total Assets	\$ 684,699	Total Operating Revenues	\$ 603,087
Total Liabilities	475,906	Total Operating Expenses	639,898
Total Net Assets	208,793	Non-operating Revenue (Expenses)	(8,925)
Current Debt	20,200	Fulton County and DeKalb County Co	ontributions 99,713
Long-term Debt	213,078	Increase in Net Assets	109,883

The Atlanta Regional Commission (ARC) is the regional planning and intergovernmental coordination agency for the 10-county Atlanta metropolitan area. Under Georgia law, the County, in conjunction with other cities and counties in metropolitan Atlanta, is a member of the Atlanta Regional Commission (ARC) and is required to pay annual dues thereto. During 2010, the County paid \$713,280 in such dues. Membership in the ARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organizational structure of the ARC. The ARC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any obligations of the ARC. Separate ARC financial statements may be obtained from: Atlanta Regional Commission; 40 Courtland St NE; Atlanta, Georgia 30303.

There were no known related-party transactions involving either joint venture.

4. Budget Basis of Accounting

Due to legal requirements, revenues and appropriations for governmental funds are budgeted on a basis that is not consistent with GAAP. The actual results of operations on the budget basis for the General Fund and Major Special Revenue Funds are presented in this report.

The major differences between the budget basis and GAAP are:

- (1) Revenues (principally property taxes, grants, and interest) are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP):
- (2) Expenditures (principally payroll, workers' compensation, and purchases) are recorded when paid (budget basis) as opposed to when incurred (GAAP);

5. Cash. Cash Equivalents, and Investments

Following are the components of the County's cash and cash equivalents, and investments (including the General Employees' Pension Fund, Agency Funds, and the Component Units) at December 31, 2010 (in thousands of dollars).

						Pension	Α	gencies		C	omponent
	Un	restricted	Re	estricted	i	Restricted	Un	restricted	Total		Units
Cash and Cash Equivalents	\$	318,154	\$	77,826	\$	105,471	\$	24,137	\$ 525,588	\$	6,203
Investments		-		-		917,524		-	917,524		805
	\$	318,154	\$	77,826	-\$	1,022,995	\$	24,137	\$ 1,443,112	\$	7,008

Statutes authorize the County to invest in obligations of the United States Treasury or agencies, banker's acceptances, bank money market accounts, repurchase agreements, and the Georgia Fund 1 investment pool (a local government investment pool). The General Employees' Pension Fund is also authorized to invest in corporate bonds and debentures which are not in default as to principal and interest; corporate stocks, common or preferred; first loans on real estate where the loans are guaranteed by the Administrator of Veterans Affairs or by the Federal Housing Authority of the United States; certificates of deposit in national banks and state banks insured by the FDIC; and any other investments approved by the Pension Board. The Pension Trust Fund also invests in collateralized mortgage obligations (CMOs). These securities are based on cash flows from interest and principal payments on underlying mortgages. CMOs are sensitive to prepayments by mortgages, which may result from a decline in interest rates. The County invests in these securities in part to maximize yields and in part to hedge against a rise in interest rates.

Custodial Credit Risk - Deposits

To control custodial credit risk, the County's investment policy requires all securities and collateral to be held by an independent third-party custodian in the County's name. The custodian provides the County with monthly values.

Concentration of Credit Risk

The County diversifies its use of investment instruments to avoid incurring unreasonable risks inherent in over-investing in specific instruments, individual financial institutions, or maturities. The County's primary government investment policy limits County investments to the following maximum percentages: U.S. Treasury Obligations 100%, Obligations of U.S. Government Agencies 100%, Repurchase Agreements 25%, Certificates of Deposit (Commercial Banks) 75%, Certificates of Deposit (S&L Associations) 10%, Local Government Investment Pool (State-Sponsored) 100% and Commercial Bank Money Market Accounts 25%. Maximums may be exceeded temporarily with the prior approval of the County's Finance Director. The County's investment policy also requires that maturities shall be timed such that a minimum of 80% be invested for a period of less than one year and 100% be invested for a period less than two years. The County's investment policy limits the pension investments to the following maximum percentages based on cost: Domestic securities 60%, Non-domestic securities 10%, and Fixed income investments and Cash 40%.

As of December 31, 2010, the County's reporting entity had the following investments: (in thousands of dollars)

Type of Investment	Fair Value			Investment Maturities (in Years)								
			Le	ss than 1		-5	6	-10	More	than 10		
Primary Government

Total Fiduciary Fund	\$	1,022,995	\$	1,220	\$	88,935	\$	41,782	\$	65,605	

Credit Risk - Investments

As a means of limiting exposure to credit risk, the risk of loss due to the failure of the security issuer or backer, the County limits investments to obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government and those deposit-type items which can be collateralized at 110% of the face value. The County's pension funds are not collateralized and are subject to credit and interest rate risk.

The County's pension trust fund (the Plan) investment policy requires that the fixed income portfolio be of high quality and chosen with respect to maturity ranges, coupon levels, refunding characteristics, and marketability. Fixed income managers are engaged to reduce volatility of the Plan's assets, provide a deflation hedge, and produce a highly predictable and dependable source of income. The quality rating of the overall portfolio must be A or better at all times. As of December 31, 2010, the weighted average of the fixed income portfolio for Denver Investment Advisors was AA-, the J.P. Morgan Assets Management was AA+, and the Mesirow Financial Investment was AA by Standard & Poor's Rating Service.

Interest Rate Risk - Investments

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. This risk is managed within the portfolio using the duration method. This method is used in the management of fixed income portfolios to quantify the portfolios' sensitivity to interest rate changes. As of December 31, 2010, the weighted average of the Option Adjusted Duration of the pension fund's fixed income portfolio for Denver Investment Advisor was 3.97 years, J.P. Morgan Asset Management was 4.27 years, and Mesirow Financial Investment was 3.78, as compared to the benchmark BC Aggregate Bond Index duration of 3.91 years.

Georgia's State Depository Board through the Director of the Office Treasury and Fiscal Services is the oversight agency for Georgia Fund 1. The primary investment objectives of the Georgia Fund 1 investment pool are safety of capital, liquidity, yield, and diversification with primary emphasis of safety of capital and liquidity. Georgia Fund 1 is rated AAAm by Standard and Poor's and had a WAM (weighted average maturity) of 41 days as of December 31, 2010. The County's fair value in the pool is the same as the value of the pool shares.

6. Capital Assets

Totals	\$ 331,305	\$ 135,428	\$ 466,733

The County is subject to the laws of the State of Georgia, which limit the amount of net bonded debt (exclusive of revenue bonds) the County may have outstanding to 10% of the assessed valuation of taxable property within the County. At year-end, general obligation bonds outstanding, net of amounts available in the Debt Service Funds, totaled \$319,868,000. The statutory limit at that date was \$2,596,800,000, providing a debt margin of \$2,276,932,000.

The following is a summary of the County's outstanding Certificates of Participation at December 31, 2010 (in thousands of dollars):

	Totals						\$	886,020	\$	330,335	\$	555,685								

The following is the purpose of each series of the County's outstanding business-type activities revenue bond issues as of December 31, 2010:

Se	ries	Purpose
19	99	Water reservoir expansion, City of Atlanta Phosphorous Reduction Program
20	100	New filter plant, sewer plant improvements, relief sewers
20	003	Refunding issue, Nancy Creek Tunnel, new Water & Sewer administration building, sewer renovation
200	06A	New raw water pump station, sewer plant improvement design, lift station improvements
200	06B	Refunding issue
20	10	Water & Sewer Recovery Zone Economic Development Program

Part of the proceeds of the Water and Sewerage Refunding Revenue Bonds, Series 2003, was used to refund \$114,335,000 of the Series 1993 Water and Sewerage Revenue Bonds. The proceeds of the Water and Sewerage Revenue Bonds, Series 1993, were used to: (1) fund a portion of the City of Atlanta Phosphorous Reduction Program, (2) to refund \$5,195,000 in Series 1985 Water and Sewerage Refunding Revenue Bonds, and (3) to refund \$23,870,000 in Series 1990 Water and Sewerage Revenue Bonds (issued to fund filter plant expansion and relief sewer capital projects). The proceeds of the Water and Sewerage Refunding Revenue Bonds, Series 1985, were used to refund all outstanding Water and Sewerage Revenue Bonds at that time, which was \$92,235,000 in Series 1963, Series 1971, Series 1973, Series 1974, and Series 1978 Water and Sewerage Revenue Bonds. The proceeds of the Water and Sewerage Revenue Bonds, Series 2006B were used to refund \$90,440,000 of the Series 1999 Water and Sewerage Revenue Bonds, and to refund \$191,940,000 of the Series 2000 Water and Sewerage Revenue Bonds. The W& S Recovery Zone Series 2010 proceeds were used to fund projects within designated recovery zones

For financial accounting and reporting purposes, all revenue bonds defeased (\$376,070,000 at December 31, 2010) are considered retired and, along with the funds held in trust, are not included in the accompanying financial statements.

The various bond indentures contain significant limitations and restrictions on annual debt service requirements, maintenance of and flow of monies through various resticted accounts, minimum amounts to be maintained in various sinking funds, and minimum revenue bond coverages.

The following is a summary of the County's outstanding business-type activities revenue bonds debt service requirements to maturity as of December 31, 2010 (in thousands of dollars):

Year			
Payable	Principal	Interest	Total
2011	13,505	27,897	41,402
2012	14,205	27,546	41,751
2013	14,845	26,866	41,711
2014	15,525	26,136	41,661
2015	16,190	25,434	41,624

2021-2025	118,515	87,937	206,452
2026-2030	127,185	55,388	182,573
2031-2035	142,590	22,181	164,771
Totals	\$ 555,685	\$ 413,632	\$ 969,317

8. Leases

Operating Leases

The County leases building and office facilities and equipment under leases and rental agreements which are cancelable annually. In 2010, the County paid \$4,851,437 to lease office space for Tax Commissioner, Police, Registrar, and Workforce Development. The County leases office equipment, emergency construction, and event equipment on an as needed basis. In 2010, equipment rentals totaled \$2,388,073.

The Development Authority of DeKalb County issued the Series 2006 Revenue Bonds for the purpose of financing the costs of the acquisition, design, construction, installation and equipping of a performing arts center facility and related parking deck. The Series 2006 Bonds are secured by a pledge of the Development Authority's right, title and interest in the rents and other payments derived by the Development Authority pursuant to a lease agreement between the Development Authority and the County. Under the lease agreement, the County is obligated to make rental payments to the Development Authority in amounts sufficient to pay the principal, premium and interest on the 2006 Bonds. In 2010, that amount was \$709,825. The future minimum lease payments as of December 31, 2010 are as follows (in thousands of dollars):

Year	
Payable	Amount
2011	705
2012	709
2013	708
2014	705
2015	705
2016-2017	1,415
	\$ 4,947

Funding for the County's rental payments is provided through a 3% tax on motor vehicle rentals.

Capital Leases

The County has entered into a multi-year lease purchase arrangement pursuant to OCGA 36-60-13 for the purchase of certain vehicles, equipment and other capital outlay projects. These leases are paid over periods not to exceed five (5) years. In 2010 the County did not enter into any new leases.

The following is a schedule summarizing future lease payments by the following major asset classes as of December 31, 2010 (in thousands of dollars):

	Equ	Equipment		Vehicles		Total		
Governmental activities:	\$	3,181	\$	_	\$	3,181		
Business-type activities:		-		30		30		
	\$	3,181	\$	30	\$	3,211		

9. Pollution Remediation Obligations

Pursuant to the provisions of GASB Statement No. 49, Accounting and Financial Reporting for Pollution Remediation Obligations, the County is reporting a \$1,432,000 liability in its Sanitation Enterprise Fund for its estimated liability due to its standing as a potentially responsible party (PRP) in the Crymes Landfill site. The Crymes Landfill is a privately owned off-site landfill which the Georgia Environmental Protection Division determined required remediation in 1998 pursuant to the Georgia Hazardous Site response Act (HSRA) HIS Listed 102292. DeKalb County is one of forty-five participants in the Crymes Landfill HSRA action and is responsible for 15% of the remediation costs. For several years, the County sent household waste to the Crymes Landfill, extending the life of its own facility. The County has funded its current share based on prior engineering efforts in the Sanitation Enterprise Capital Fund. Post remediation costs are unlikely.

10. Employee Benefits

(A) Defined Benefit Pension Plan Description

The County provides pension benefits for substantially all of its full-time and permanent part-time employees through a single employer defined benefit plan (the "Plan"). The Plan is administered by the DeKalb County Pension Board (the "Board"), composed of seven voting members (the Chief Executive Officer of DeKalb County, two members elected by County employees, two members selected by the DeKalb County Board of Commissioners, one member elected by County retirees, and one member appointed by the other voting members of the Board) and two non-voting members (the County Director of Finance and the County Merit System Director). The Plan does not issue separate financial statements. The County's payroll for employees covered by the Plan for the year ended December 31, 2010 was \$309,750,000, as compared to a total County payroll of \$327,325,000.

Employees participating prior to September 1, 2005: The Plan provides retirement benefits of 2.75% of average salary (based on the highest consecutive 36 months of pay over the last 10 years of employment) times years of service with a maximum retirement benefit of 82.5% of average salary. Normal retirement, with at least 10 years of service, is at age 55 or older. Early retirement (subject to reductions in benefits) is allowed at age 50 with 10 or more years of service. Employees with 30 years of service can retire at any age with no reduction in benefits. Employees with 30 years of service can retire at any age with no reduction in benefits. An employee can retire at age 65 with three or more years of service.

Termination benefits are as follows: Within the first three years of service, the participant's contributions will be returned without interest. After three but less than ten years of service, the participant may either withdraw contributions plus interest or leave contributions in the Plan and receive a monthly benefit to commence at age 65 equal to his accrued benefit as of the date of termination. After ten years of service, the participant may either withdraw contributions plus interest or leave contributions in the Plan and receive a monthly benefit to commence at his normal retirement date equal to his accrued benefit as of the date of termination. Such terminating employee with ten or more years of service may elect to receive reduced benefits any time after he attains 50 years of age.

Employees beginning participation on or after September 1, 2005: The Plan provides retirement benefits of 2.25% of average salary (based on the highest consecutive 36 months of pay over the last ten years of employment) times years of service with a maximum retirement benefit of 67.5% of average salary. Normal retirement, with at least 10 years of service, at age 62 or older. Early retirement (subject to reductions in benefits) is allowed at age 55 with 10 or more years of service. Employees age 55 with 25 years of service can retire with no reduction in benefits. An employee can retire at age 65 with seven or more years of service.

Termination benefits are as follows: Within the first three years of service, the participant's contributions will be returned without interest. After three but less than seven years of service, the participant's contributions plus interest shall be returned. After seven years of service, the participant may either withdraw contributions plus interest or leave contributions in the Plan and receive a monthly benefit to commence at his normal retirement date equal to his accrued benefit as of the date of termination. Such terminating employee may elect to receive benefits any time after he attains 55 years of age.

Retirement benefits are payable monthly for life (ten years guaranteed) with survivor options available subject to reduced monthly benefits. The Plan also provides disability benefits. These benefit provisions and all other requirements are established by State statute and by the DeKalb Pension Act. Any changes to the Plan benefits must be approved by the DeKalb County Board of Commissioners. Contribution levels to the Plan are determined using the actuarial basis specified by statute. Contribution levels in 2010, as approved by the DeKalb County Board of Commissioners, are employee 4.5% and County 9.5% of employee earnings. The accrual basis of accounting is used to report the activities of the Plan. Plan member contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Assets are valued at fair value, based on quoted market prices, with actuarial valuations of investments adjusted to market at a 10-year smoothed rate. As of year end, no investment in any one organization represented 5% or more of plan assets. Administrative costs of the Plan are financed through investment earnings. As of year-end, Plan membership was composed of the following:

Active vested employees covered by the Plan	1,853
Active nonvested employees covered by the Plan	4,229
Retirees currently receiving normal retirement benefits	3,630
Retirees currently receiving disability benefits	124
Beneficiaries of deceased retirees currently receiving benefits	263
Terminated employees entitled to benefits, but not yet receiving them because of age	454
Total members	10,553

(B) Actuarial assumptions

The actuarial accrued liability was computed as part of an actuarial valuation performed as of April 1, 2009. Under GASB 27, for financial reporting purposes, an actuarial valuation should be performed at least biennially only if no significant actuarial assumptions used in the valuation include: (a) rate of return on investment of present and future assets of 8% per year compounded annually, (b) projected salary increases of 3.5% to 7.8% for inflation plus 3.5% for merit / seniority based on an age-graduated scale, compounded annually, and (c) no postretirement benefit increases were assumed. In 2010, the County offered to employees meeting certain age and years of service criteria, an early retirement incentive program. The program was estimated to generate 750 retirements, and 841 employees retired under this program. The program credits employees over age 50 with 2 additional years of service and reimburses the employee for 1.5 times the accrued unused annual leave, up to a maximum of 480 hours.

GASB 27 was effective for the fiscal year beginning January 1, 2001. The results shown in this report represent the accounting impact of GASB 27. Prospective application of GASB 27 has been assumed. The amount of annual contribution required to fund the Plan is comprised of an employer normal cost payment and a payment of the unfunded actuarial accrued liability. The recommended contribution is based on an open 30 year level percentage of pay amortization of the unfunded actuarial accrued liability. The amortization period is reset every year.

The Entry Age Normal (EAN) actuarial cost method is used for valuation of the Pension Fund. EAN is the age at the time the participant would have commenced participation if the plan had always been in existence. Normal Cost and Actuarial accrued liability are calculated on an individual basis and are allocated by service, the Normal cost determined as if the current benefit accrual rate had always been in effect. There have been no assumption changes with this valuation.

The participant data is supplied by the plan sponsor. The actual claims experience data through December 2008 was trended to the midpoint of the projection period, and then blended with an age-adjusted per capita active claims cost. Administrative fees are included in this amount.

(C) Actuarially Determined Pension Plan Contribution Requirements and Contributions Made

The Plan's funding policy provides for actuarially determined contributions at rates that, for individual employees, are a level percentage of payroll. The contribution rate for normal rost was changed from the projected unit credit cost method to the entry age normal method for 2006. The recommended contribution calculated under the entry age normal cost method is less than the contribution calculated under projected unit credit. The significant actuarial assumptions used to compute the actuarially determined contribution requirement are the same as those used to compute the actuarial accrued liability as described above. The actuaries used an asset valuation method that gradually adjusts to market value. Under this valuation method, the full value of market fluctuations is not recognized in a single year and, as a result, the asset value and the plan costs are more stable. To develop the Annual Required Contribution, the UAAL has been amortized over 10 years using level dollar amortization in years when an overfunding existed, and over 30 years as a level percentage of payroll in years of underfunding. The total contributions to the Plan for the year were made in accordance with actuarially determined requirements computed through an actuarial valuation performed April 1, 2010. The April 2010 valuation report was revised from previously issued reports pursuant to action by the County to bring the Plan into compliance with State funding requirements. Some of the historical information in this report has been revised to reflect changes made to meet such compliance standards.

The April 1, 2010 valuation is used to determine the recommended contribution for the fiscal year beginning January 1, 2012. The recommended contribution is the minimum amount required to satisfy the minimum funding standards under Georgia law by virtue of Code section 47-20-10. The minimum required contribution under Georgia law is based on the Plan's normal cost plus the sum of individual bases established for experience gains and losses, plan amendments, assumption changes and method changes. Georgia Code Section 47-20-10(b) also allows a Plan to be in compliance if the sponsor makes contributions equal to the Annual Required Contribution (ARC) under GASB.

Based on the April 1, 2010 valuation, employer contributions of \$30,600,000 represent 105% of the employer annual required contribution. The net pension asset of \$22,688,000 was determined in accordance with GASB Statement No. 27, Accounting for Pensions by State and Local Governmental Employers. The amortization period for the County's actuarial accrued surplus is open. The fund allocation is based on a percentage of payroll annually.

Schedule of Funding Progress (in thousands of dollars where applicable):

	Valuation Date April 1, 2010				
Actuarial value of plan assets	\$	1,243,277			
Actuarial accrued liability (AAL)		1,808,967			
Assets in excess (deficiency) of / unfunded					
actuarial accrued liability (UAAL)	\$	(565,690)			
Funded ratio		68.73%			
Annual covered payroll	\$	265,696			
, ,	v				
UAAL as a percentage of covered payroll (not less than zero)		212.91%			

Schedule of Employer Contributions (in thousands of dollars where applicable):

	2010		2009		2008
Annual required contribution (ARC)	\$ 33,13	3 \$	28,932	\$	29,038
Interest on net pension asset	(1,83	3)	(1,772)		(2,010)
Annual required contribution adjustment	1,41)	1,359		1,453
Annual pension cost (APC)	32,70	5	28,519		28,481
Annual employer contributions made	(31,67	1)	(29,375)		(26,216)
Change in net pension asset	1,03	1	(856)		2,265
Beginning of year net pension asset	(23,72)	2)	(22,866)		(25,131)
End of year net pension asset	\$ (22,68	3) \$	(23,722)	\$	(22,866)
Amortization	16.821	5	16.8215		17.3015
Percentage of annual employer contributions made to annual required contributions	95.59	%	101.53%		90.28%
Percentage of annual employer contributions made to annual pension cost	96,84	%	103.00%		92.05%

The schedules of funding progress and employer contributions, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

(D) Schedule of contributions as a percentage of salary

	2010	2009	2008	2007	2006	2005	2004	2003	2002	2001
Employee	4.5%	4.5%	4.0%	3.5%	2.5%	1.5%	.5%	.5%	.5%	.5%
Employer	9.5%	9.5%	8.0%	6.5%	4.0%	3.0%	.5%	.5%	.5%	.5%

The Board of Commissioners has approved changes to the employee and employer contributions to the Pension Plan starting in January 2011 of 8.38% and 17%, respectively.

(E) Other Postretirement Benefits

Group health benefits are available to all retirees, beneficiaries of, and dependents of retirees, with the County paying up to 70% of the total cost and the retiree paying the remaining amount. Life insurance in the amount of \$7,000 is provided to all retirees without cost to the retiree. These benefits are provided by the DeKalb County Board of Commissioners each year and are not statutory, contractual, or required by other authority. The total cost of retiree health benefits (including retirees' portions), \$21,391,244 for 2010, is recognized as an expense in the Internal Service Funds as claims are incurred. The enterprise funds and major governmental funds reimburse the Internal Service Funds for their share of these expenses. Currently 4,220 retirees, beneficiaries, and dependents of retirees are receiving group health benefits under the Plan.

The DeKalb County Employee and Postretirement Medical & Life Insurance Benefits Plan, administered by the County's Board of Commissioners, is a single-employer defined healthcare plan. The plan provides medical, dental, vision, and life insurance benefits to active employees, and eligible retirees, and eligible beneficiaries and dependents of retirees. The annual contribution made is based on the projected pay-as-you-go financing requirements. The County does not prepare a separate audited GAAP-basis postemployment benefit plan report.

The County's annual other postemployment benefit (OPEB) cost is calculated based on the Annual Required Contribution of the Employer (ARC), an amount actuarially determined in accordance with the parameters of GASB statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Linan Pensions. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. Under GASB 45, for financial reporting purposes, an actuarial valuation is required at least biennially for OPEB plans with a total membership (including employees in active service, terminated employees who have accumulated benefits but are not yet receiving them, and retired employees and beneficiaries currently receiving benefits) of 200 or more. The following schedule shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation.

Schedule of Funding Progress (in thousands of dollars where applicable):

	Valuation Date						
	January 1, 20						
Actuarial accrued liability:							
Retired employees	\$	622,041					
Active employees		982,454					
Unfunded actuarial accrued liability (UAAL)	\$	1,604,495					
Annual covered payroll	\$	309,750					
UAAL as a percentage of covered payroll (not less than zero)		518.0%					

Schedule of Contributions to Other Postemployment Benefit (OPEB) (in thousands of dollars where applicable):

	2010			(as restated)	2008	(as restated)
Beginning net OPEB obligation	\$	315,287	\$	173,012	\$	84,211
Annual required contribution (ARC)		168,242		156,603		105,256
Interest on net OPEB obligation		12,611		6,920		3,368
Annual required contribution (ARC) adjustment		(13,331)		(7,087)		(3,118)
Annual OPEB cost		167,522		156,436		105,506
Annual employer contributions made		(21,910)		(14,161)		(16,705)
Net OPEB obligation as of December 31	\$	460,899	\$	315,287	\$	173,012
Percentage of annual employer contributions made to		47.00/		0.00/		45.004
annual required contributions Percentage of annual employer contributions made to		13.0%		9.0%		15.9%
annual OPEB cost		13.1%		9.1%		15.8%
Net OPEB obligation attributable to:						
Governmental Funds	\$	349,427	\$	240,730	\$	131,731
Business-type Funds		111,472		74,557		41,281
Total	\$	460,899	\$	315,287	\$	173,012

The schedules of funding progress and employer contributions, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future, including assumptions about future employment, mortality, and heathcare cost trends. Amounts determined regarding the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, multiyear trend information about whether the actuarial value of the plan is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

For the January 1, 2010 actuarial valuation, the projected unit credit method was used. This method allocates benefits of each individual by a consistent formula to valuation years. The amortization amount of the unfunded actuarial accrued liability (UAAL) has been computed as a level percentage of payroll using a 30-year amortization period. A closed amortization period has been used which reduces the period by one year annually such that the unfunded liability becomes fully amortized 30 years from the initial valuation.

The investment return assumption (or discount rate) is to be selected as the estimated long-term investment return on the investments that are expected to be used to finance the payment of benefits. For funded plans, the considerations in selecting this rate would be similar to selecting the funding interest rate for a pension plan. However, for unfunded plans such as DeKalb County's, the discount rate should be determined with reference to the employer's general assets. In this instance, governmental unrestricted general assets are invested in very short-term fixed instruments. This asset allocation leads to a low discount rate. For the purposes of the 2010 actuarial valuation, a discount rate of 4.00% has been used.

Other actuarial assumptions include healthcare cost trend rates ranging from 9.1% in 2011 to 4.5% in 2029 and beyond. Employee salary increases are projected at a range from 6.50% for employees 25 years of age to 3.50% for employees 55 years and older. Retiree medical contributions are assumed to increase at the same rates as incurred claims. A constant cost sharing between employer and employee is assumed. All future retirees and 60% of the spouses of married participants are assumed to elect coverage. While not obligated to continue to provide coverage, it is assumed for the purposes of this valuation that DeKalb County will maintain a consistent level of cost sharing and benefit provisions.

(F) Deferred Compensation Plan

The County offers its employees an optional deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is available to all County employees and permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the participant or other beneficiary) solely the property and rights of a Trust created by the County for the benefit of the participants and administered by third parties. The County has adopted the provisions of GASB Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 45/ Deterred Compensation Plans, the County is not required to include 45/ plan assets and liabilities from the mancial statements of the County.

11. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; law enforcement liability; injuries to employees; assumed risks for employee benefits; damage to private parties; and natural disasters. By provision of the State of Georgia Constitution, the County may be immune from liability for most forms of bodily injury and property damage arising out of its operations, if such losses are not insured. It is the policy of the County to utilize immunity as a legal defense against liability claims whenever the risk of loss is not insured and immunity may be asserted.

DeKalb County has a Risk Management Fund to account for and to finance its purchase of insurance and coverage of uninsured risks of loss when immunity cannot be asserted. Under this program, the Risk Management Fund finances two reserves: workers' compensation and incurred but unpaid claims under a self-funded employee medical benefit program. The County retains the first \$750,000 of expense for each occurrence of workers' compensation injuries, and it retains the first \$200,000 of medical expense claims per year for each covered employee under the comprehensive medical insurance plan. Beyond these limits, the County purchases specific excess insurance to limit further loss. Reserves are established for the medical insurance liabilities based on actuarial projection provided by the plan administrator (Blue Cross and Blue Shield of Georgia). Reserves for workers' compensation are established as follows: (1) an estimate of future expenses for known claims and known treatment needs, and (2) a statistical projection of incurred but unreported claims, based on recent historical experience of loss development in the County's claims.

The County purchases commercial automobile liability insurance to cover its automobile, trucks, and other on-road vehicles. It also purchases liability coverage for its helicopter fleet and for airport operations. Beyond the limits of the liability policies, the County asserts immunity, and has never been required to pay a claim in excess of those policies. Consequently, no reserve is established for these risk exposures.

Buildings and contents are insured through an "all risk" property damage insurance policy, and the County retains the first \$100,000 of each loss, with an aggregate limit of \$500,000,000. This retention level is funded by an annual appropriation of \$500,000 which, historically, has been adequate to cover all claims.

Workers Compensation claims are self funded up to a \$750,000 retention. Medical and Indemnity expenses stemming from work related injuries are primarily paid as they are incurred. Reserves are set for each claim on an undiscounted basis and reduced to zero upon settlement. Healthcare claims are paid through a fully insured HMO and a self funded PPO. Healthcare claims paid for the PPO are paid on a monthly basis. The changes in the liabilities for self-insurance for the last five years are as follows (in thousands of dollars):

	 2010	2009	2008	 2007	2006		
Workers' compensation: Incurred claims, net of any changes Payments Ending balance	\$ 5.649 (5,467) 8,280	\$ 5,780 (6,080) 8,098	\$ 5,593 (4,262) 8,398	\$ 3,987 (4,097) 7,067	\$	4,292 (4,456) 7,177	
Health and dental: Incurred claims, net of any changes Payments Ending balance	 80,059 (82,844) 850	 75,863 (76,806) 3,635	 72,245 (72,816) 5,149	 70,699 (69,871) 5,720		64,233 (63,723) 4,892	
Total liability for self-insurance	\$ 9,130	\$ 11,733	\$ 13,547	\$ 12,787	\$	12,069	

12. Proprietary Funds

Contracts and agreements

The County has a shared interest in various water pollution control plants with the City of Atlanta, Gwinnett County, and Fulton County. Each of these agreements requires the County to pay a pro rata share of the plants' operating costs and additional capital improvements which may be made by the other equity interest. During 2010, the County incurred the following operating costs (no capital costs were incurred) (in thousands of dollars):

R. M. Clayton Plant - City of Atlanta	\$ 8,940
Big Creek Plant, John's Creek Plant &	
Marsh Creek Plant - Fulton County	1,376
Jackson Creek Plant - Gwinnett County	441
Total	\$ 10,757

13. Allowance For Uncollectible Receivables

Allowances for uncollectible receivables at December 31, 2010 are as follows (in thousands of dollars):

	Gross ceivables	 collectible ceivables	Net Receivables			
Govemmental activities: Taxes receivable Accounts receivable	\$ 47,665 13,084	\$ 2,079 9,172	\$	45,586 3,912		
	\$ 60,749	\$ 11,251	\$	49,498		
Business-type activities: Accounts receivable	\$ 53,003	\$ 9,333	\$	43,670		

14. Due From Other Governments

Amounts due from other governments at December 31, 2010 are as follows (in thousands of dollars):

Governmental activities:		Business-type activities:	
Georgia Department of Transportation	\$ 1,402	Georgia Emergency Management Agency	\$ 72
Georgia Emergency Management Agency	385	Other local governments	928
U. S. Department of Housing & Urban Development	101	Total	\$ 1,000
U. S. Department of Labor	286		
U. S. Department of Health and Human Services	146		
Criminal Justice Coordinating Council	291		
Office of Nationa Drug Control	138		
Others	207	Component units:	
Total	\$ 2,956	Miscellaneous State Agencies	\$ 1,533

15. Interfund Balances and Activity

(A) Balances Due To / From Other Funds

Balances due to / from other funds at December 31, 2010 consist of the following (in thousands of dollars):

Due to the General Fund from other Governmental funds representing short-term loans.	\$ 177
Due to Internal Service Fund from General Fund, representing a short term loan.	19,953
Due to Internal Service Fund from Special Tax District-Designated Services, representing short term loan.	7,300
Due to Internal Service Fund from other Governmental funds, representing short term loans	9,357
Due between Internal Service Funds, representing a short term loan	530
	\$ 37,317

(B) Transfers To / From Other Funds

Transfers to / from other funds for the year consist of the following:

Transfer from General Fund to other Nonmajor Governmental funds to match federal and state grants.	\$ 2,613
Transfer from General Fund to other Nonmajor Governmental funds for capital projects.	5,880
Transfer from Special Tax District Designated Services Fund to other Nonmajor Governmental funds to match federal and state grants.	225
Transfer from Special Tax District Unincorporated Fund to Special Tax District Designated Services Fund to fund operations.	76,218
Transfer from other Nonmajor Governmental funds to General Fund to fund programs.	3,110
Transfer from other Nonmajor Governmental funds to Debt Service to fund debt service.	1,355
Transfer between other Nonmajor Governmental funds to match grants.	1,090
Transfer from Sanitation Enterprise Fund to General Fund to fund operations.	2,000
Transfer from Internal Service Funds to General Fund to fund operations.	10,307
	\$ 102,798

16. Commitments and Contingencies

The County is required by state law to spend 2% of the 5% hotel / motel tax collected on contracts promoting tourism. In fiscal year 2006, the County Board of Commissioners voted to appropriate this 2% portion of the hotel / motel tax collected by the County to the DeKalb Convention and Visitors Bureau ("DCVB"). During 2010, the County paid \$1,357,253 to the DCVB.

Litigation - The County is defendant in various legal actions related to claims for alleged damages to persons and property, civil rights violations, zoning matters, and other similar types of actions arising in the course of normal County operations. In the opinion of the County's management and legal counsel, there are no suits pending or unasserted claims that would have a material adverse effect on the financial condition of the County.

Grant Contingencies - The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County's management expects such amounts, if any, will not be significant.

17. Fund Deficits and Liquidity

The three major tax funds all completed 2010 with fund balance deficits as follows: the General Fund (\$33,529,000); the Special Tax District-Designated Services Fund (\$8,29900); the Special Tax District-Unincorporated Fund (\$92,000). These deficits were caused by a downturn in the economy forcing revenue to lag behind expenditures. The Nonmajor Special Revenue Recreation Fund ended fiscal 2010 with a fund balance deficit of (\$322,000). The County will reduce expenditures to match anticipated income from charges for services at pools and parks. The Nonmajor Special Revenue-Grant-in-Aid Fund ended 2010 with a (\$6,950,000) deficit due to expenses incurred prior to being reimbursed. The Nonmajor Special Revenue-Hospital Fund ended 2010 with a (\$1,688,000) deficit. The County will increase the fund's tax allocation and reduce expenditures to eliminate this deficit. The Nonmajor Capital Projects Fund ended 2010 with a (\$2,603,000) deficit. An amount necessary to eliminate the negative fund balance will be transferred to the fund in 2011. The Internal Service Fund - Vehicle Maintenance ended fiscal 2010 with a fund balance deficit of (\$18,301,000). The County will reduce expenditures to match anticipated income from charges for services. The Internal Service Fund - Risk Management ended fiscal 2010 with a fund balance deficit of (\$731,000).

The property tax digest declined in 2011 by \$3 billion in assessed value from that of 2010. In response to this decline and operational funding requirements, the Board of Commissioners raised the millage rate in the unincorporated by 4.35 mills (from 16.86 to 21.21). Tax rates in the incorporated areas were raised as well, in accordance with service delivery arrangements. The increase in tax rates is expected to generate more revenue than the impact of the tax digest decline, and part of the excess revenue will be designated as budgetary reserves. The County is taking steps to control expenditures, including unpaid days for employees, elimination of certain vacant positions and outsourcing of some services.

Liquidity risk is the risk that the County does not have sufficient liquid financial resources to meet its obligations when they fall due, or would have to incur excessive costs to do so. During times of economic stress such as the current national recession, the County faces a significant risk to its ability to generate cash from revenues sufficient to pay operating expenditures. Two of the County's largest revenue streams, property taxes and sales taxes, are especially susceptible to major downturns in the economy and have declined in recent years due to increasing levels of unemployment, declining property values and the foreclosure crisis. Unemployment increased rapidly from 10.2% in December 2009 to 10.4% in December 2010 (compared to 10% state and 10% national).

The County acknowledges the urgency and criticality of reversing the trend of negative fund balances in certain funds, particularly the general fund, and building back adequate reserves. The current general fund deficit poses significant liquidity risk and potentially could increase the cost of any new bond issuances, and a reduction in services and service levels. The County currently limits its borrowings to fixed interest obligations for essential projects. In response, the County has implemented a number of major deficit reduction initiatives designed to reduce expenditures and increase revenues in 2011 and beyond.

In mid-2010, the County offered early retirement incentives to 1,200 eligible employees, resulting in 843 employees opting for early retirement and a reduction in annual salaries totaling more than \$30 million. In addition, the County's liability for unused vacation related to these employees was reduced and paid out by the Pension Fund. The Board of Commissioners eliminated all vacated positions, and authorized primarily the re-creation of certain critical public safety and business type activity positions. The County also implemented changes to the employee insurance programs to limit the growing cost of health insurance; this effort is on-going and is expected to continue to result in significant cost reductions. As a part of the 2010 budget, seven unpaid holidays were implemented, four of which were converted to furlough days. The County maintains absolute funds checking to mitigate the risk of unauthorized over-spending, and the CEO continues to direct activities under his office's control to eliminate unnecessary expenditures.

In mid-2010, the CEO and Board of Commissioners established a Revenue Enhancement Commission consisting of business representatives and community leaders. House Bill 1221, adopted by the General Assembly in 2010, amended the application of the Homestead Option Sales Tax to include food items effective January 1, 2011. This amendment will potentially increase revenues by more than \$10 million annually. Other adopted State legislation will increase various fees charged by various courts starting in 2011. The County has devoted considerable attention to increasing revenues by the reduction of unpaid traffic fines, and implementing a paperiess citation procedure and other court measures to streamline collections.

In the event that the deficit reduction initiatives described were to fall short of anticipated results, the County would evaluate other available options including additional tax levies.

18. Budget Information

The County exceeded the legal level of budgeted expenditures in the following departments during 2010 (in thousands of dollars):

Fund	Department	Amount
General	Tax Commissioner	\$ 67
General	Probate Court	24
General	Public Works-Administration	86
General	Human and community development	37
Special Revenue - Special Tax District - Designated	Arts, culture, and entertainment	85
Special Revenue - Special Tax District - Unincorporated	Chief Executive Officer	99
Special Revenue - Special Tax District - Unincorporated	Police	91
Special Revenue - Special Tax District - Unincorporated	Non Departmental	48
Nonmajor Special Revenue Development	Planning & Development	692
Nonmajor Special Revenue Victim Assistance	Civil and Criminal Court System - District Attorney	13
Nonmajor Special Revenue Recreation	Parks and Recreation	137
Nonmajor Special Revenue Grant-in-Aid	District Attorney	51
Nonmajor Special Revenue Grants ARRA	Public Safety - Police	3,003

The overages in the Special Revenue - Special Tax District - Designated Fund were caused by unexpected expenditures during 2010. The budget for this department in 2011 will be sufficient to cover expenditures. The overages in the Special Revenue - Special Tax District - Unincorporated Fund were a result of the CEO's Office charging maintenance charges to this fund rather than the General Fund. The overages in the Recreation Fund were a result of contractual services and related operating supplies costing more than anticipated. The departmental overage in the Grant-in-Aid Fund results from having to expend on grants prior to reimbursement and establishment of the grant.

As mandated by Georgia law, the County maintains a project-length balanced budget for each capital projects fund. The following is a summary of each of these fund's project-length budgets for the year ended December 31, 2010 (in thousands of dollars):

2006

Control to add any one of	Р	987 arks onds	 Jail Bonds	Health Facilities Bonds			2001 Parks Bonds		Transportation, Parks, and Libraries Bonds		HOST Capital Projects		Capital provement Projects

(Unaudited)

2. Other Postemployment Benefits (OPEB)

(A) Unaudited Schedule of Funding Progress (in thousands of dollars where applicable):

	Valuation Date								
	1-1-2010			1-1-2009		1-1-2008	1-1-2007		
Actuarial accrued liability:		,							
Retired employees	\$	622,041	\$	614,907	\$	414,901	\$	411,698	
Active employees		982,454		855,149		713,608		629,906	
Unfunded of actuarial accrued liability (UAAL)	\$	1,604,495	\$	1,470,056	\$	1,128,509	\$	1,041,604	
Covered Payroll	\$	309,750	\$	315,482	\$	328,689	\$	315,072	
UAAL as a percentage of Covered Payroll		518.0%		466.0%		343.3%		330.6%	

(B) Unaudited Schedule of Contributions to Other Postemployment Benefits (OPEB) (in thousands of dollars where applicable):

	2010	2009* (as restated) 200	2007**	
Annual required contribution (ARC)	168,242	156,603	105,256	98,300
Percentage of annual employer contributions made to annual OPEB cost	13.08%	9.05%	15.83%	14.33%

"In 2009, the trend tables were updated to reflect the new anticipated future healthcare costs increase. This change increased both the plan's actuarial accrued liability and annual required contribution almost 20%. Further, several demographic assumptions (i.e., termination rate, retirement rate, and disability rate) were updated from the 2008 valuation to align them with the assumptions used in the valuation of the County's pension obligations.

^{**}Information prior to 2007 is not available

DeKalb County, Georgia Nonmaior Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than trusts or major capital projects) that are legally restricted to expenditure for specified purposes.

The following Nonmajor Special Revenue Funds are used by the County:

Development Fund - to account for operations of the County's development department, whose financing is provided by license and permit fees

PEG Support Fund - to account for monies collected from cable companies to provide infrastructure for government access channels.

County Jail Fund - to account for monies collected as a result of a 10% penalty on certain court cases, which are used for the construction, operation, and staffing of County detention facilities.

Victim Assistance Fund - to account for fines assessed in State and Superior Courts in DeKalb County which are used for victim assistance programs.

Recreation Fund - to account for the operations of various recreational activities provided by the County whose financing is through user fees.

Juvenile Services Fund - to account for monies collected under Georgia law for probation services to juvenile offenders which are used for providing treatment to juvenile offenders.

Drug Abuse Treatment and Education Fund - to account for monies collected under Georgia law related to additional penalties on controlled substance offenses which are used for drug abuse treatment and education programs relating to controlled substances and marijuana.

Law Enforcement Confiscated Monies Fund - to account for monies confiscated under Georgia law by DeKalb law enforcement officers related to controlled substance offenses which are used to defray the cost of complex investigations and to purchase equipment relating to said investigations.

Street Lights Fund - to account for street light assessments on County residents and businesses which are used for providing street light services for the County's citizens.

Speed Humps Fund - to account for speed hump assessments on County residents which are used for providing speed hump services for the County's citizens.

Emergency Telephone System Fund - to account for monies collected under Georgia law by the telephone company on behalf of DeKalb County which are used for providing emergency 911 services to residents of the County.

Grant-in-Aid Fund - to account for operations of various grant-in-aid programs. Financing is provided by contributions from various governmental agencies. Such contributions are used only to finance expenditures permitted by the various grant-in-aid contracts and agreements.

2002 Local Law Enforcement Block Grant Fund - to account for year 2002 local law enforcement block grant monies which are used to support law enforcement in the County.

2003 Local Law Enforcement Block Grant Fund - to account for year 2003 local law enforcement block grant monies which are used to support law enforcement in the County.

2004 Local Law Enforcement Block Grant Fund - to account for year 2004 local law enforcement block grant monies which are used to support law enforcement in the County.

2005 Justice Assistance Grant Fund (formerly LLEBG) - to account for year 2005 local law enforcement block grant monies which are used to support law enforcement in the County.

ARRA Fund (Amercian Recovery and Reinvestment Act 2009) - to account for year 2009 stimulus monies which are used to support local governments.

Fire Fund - to account for operations of the County's fire department whose financing is provided by a specific annual property tax levy. Such property taxes are used to provide fire protection for all residents of the County not protected by municipal fire departments.

Hospital Fund - to account for contractual payments made by the County to the Fulton DeKalb Hospital Authority whose financing is provided by a specific annual property tax levy.

Hotel/Motel Tax Fund - to account for taxes collected by hotels and motels within the County which are used for the promotion of the tourism and convention trade within the County.

Rental Motor Vehicle Tax Fund - to account for taxes collected on motor vehicles rented within the County which is used to fund rental payments on the Porter Sanford III Performing Arts and Center.

Law Library - to account for fees received from State and Superior Courts and used to finance the Law Library's operation and purchase of reference materials.

Alternative Dispute Resolution - to account for fees received from State, Magistrate, Probate, and Superior Courts and used to fund dispute resolution matters.

Nonmajor Capital Projects Funds

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities for the County's governmental funds.

The following Nonmajor Capital Projects Funds are used by the County:

1987 Parks Bonds Fund - to account for the proceeds of the 1987 General Obligation Bond issue and the related capital expenditures for parks.

Jail Bonds Fund - to account for the proceeds of the 1991 General Obligation Bond issue and the 1998 General Obligation Bond issue and the related capital expenditures for a new County jail.

Health Facilities Bonds Fund - to account for the proceeds of the 1993 General Obligation Bond issue and the related capital expenditures for health facilities.

2001 Parks Bonds Fund - to account for the proceeds of the 2001 General Obligation Bond issue and the related capital expenditures for parks.

HOST Capital Projects Fund - to account for the proceeds from the homestead option sales tax revenues designated for capital projects.

Capital Improvement Projects Fund - to account for all other monies related to capital expenditures of the County's governmental funds.

COPS Bond Projects Fund - to account for the proceeds of the 2003 Certificate of Participation Bond issue and the related capital expenditures.

Public Safety and Judicial Facilities Authority Projects Fund - to account for the proceeds of the 2004 Revenue Bond issue and the related capital projects for purchase and renovation of various buildings for the Public Safety Department.

Building Authority Juvenile Court Project Fund - to account for the proceeds of the 2003 and 2005 Revenue Bonds and the related expenditures for the construction of a juvenile court facility for the County.

Urban Redevelopment Agency Bonds Fund - to account for the proceeds of the 2010 Recovery Zone Economic Development Bonds issue and the related capital projects for the renovation and relocation of various buildings.

ARRA (Amercian Recovery and Reinvestment Act 2009) Project fund - to account for proceeds from the year 2009 stimulus for capital projects.

Internal Service Funds

Internal Service Funds are used to account for the financing of goods or services provided by one department to other departments of the County on a cost reimbursement basis.

The following Internal Service Funds are maintained by the County:

Vehicle Maintenance Fund - to account for operations of the County's Vehicle Maintenance Department which maintains and repairs all of the County's vehicles.

Vehicle Replacement Fund - to account for all purchases and dispositions of the County's vehicles.

Risk Management Fund - to account for all of the County's risk management-related revenues and expenditures. This includes unemployment compensation insurance, group health and life insurance, general liability insurance, and workers' compensation insurance.

Agency Funds

Tax Commissioner - to account for all real, personal, tangible, and intangible recording taxes collected and forwarded to the County and other governmental units.

Sheriff - to account for collection fees, proceeds from judicial sales, bond forfeitures, and cash bonds, which are disbursed to other elected officials and agencies, the County, and individuals. The Sheriff also collects, maintains, and disburses monies for civil suits and minors per court order.

Seized Property - to account for monies seized by Public Safety during arrests. These monies are either returned to victims, the arrested party, or forfeited to the County.

The following agency funds are used to account for fines, fees, and other monies collected by the courts and remitted to other parties in accordance with court orders and state law:

Clerk of Superior Court State Court

Juvenile Court

Probate Court Magistrate Court State Court Probation

STATISTICAL SECTION

Statistical Section (Unaudited)

Statistical tables differ from financial statements because they usually cover more than one fiscal year and may present non-accounting data. These tables reflect social and economic data, financial trends, and the fiscal capacity of the government. The information in this section is presented as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information say about the County's overall financial health.

Contents	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.	S3-S8
Revenue Capacity These schedules contain trend information to help the reader assess the County's most significant local revenue source, the property tax.	S9-S14
Debt Capacity These schedules present information to help the reader assess the affordability of the County's current debt and the County's ability to issue additional debt in the future.	S15-S20
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.	S21-S22
Operating Information These schedules contain service and infrastucture data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.	S23-S27

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The County implemented GASB Statement 34, *Basic Financial Statements--and Management's Discussion and Analysis--for State and Local Governments*, in 2002; schedules presenting government-wide information include information beginning in that year.

Comments Relative to the Statistical Section

The following statistical tables that are recommended for inclusion by the Government Finance Officer's Association are not included for the reasons stated below:

Special Assessment Collections - Last Ten Fiscal Years. (The County has had no special assessments for the past ten years related to any debt for which the County is obligated in some manner.)
